About 38W Commercial LED Downlight-FL

The 38W commercial LED downlight-FL provides an environmentally and financially responsible alternative to its HID equivalence. In most shops and display areas, lighting makes up a large part of electricity expenses. The simplest way to reduce your energy bills and your carbon Dioxide is to reduce your power consumption. With the 38W commercial LED Downlight you will enjoy significant energy savings, long lifetime, instant start-up and safe lighting environment. It is not only a perfect replacement for the metal halide lamps but also a great option for indoor and decorative lighting applied in shop display, showrooms, reception areas, conference rooms, corridors, lounges, museums and theatres.
